JOINT MISSION COVERAGE SUMMARY

Mission C 6035
30 August 1959

Summary of Coverage

Mission C 6035, flown 30 August 1959, covered parts of China, Laos, and North Viet Nam. The coastal region of North Viet Nam was covered from Vinh northward to the Hon Gay area, also the Red River Delta with its concentration of military activity around Hanoi and Haiphong, the adjacent portion of the China Border, and the portion of Laos lying southwest of the great delta.

Quality

Quality of the photography ranges from good to poor. Approximately 10 percent of the mission shows cloud cover; chiefly the clouds lie inland. Numerous targets are on oblique photography.

USAF World Aeronautical Charts, 1:1,000,000

616 Red River

617 Gulf of Tonkin

Categories

Information is listed by categories, as shown in the Table of Contents. Arrangement within categories is as follows: Airfields and Urban areas -- alphabetically by (1) country and (2) city or installation; all other categories -- by (1) country, (2) WAC number, and (3) degree square. An index of geographic names follows the text.

Coordinates

Reference to every item by a single pair of coordinates is a matter of convenience in data recall. The coordinates used are those of the southwest corner of the one-minute square in which the item occurs. An exception is made in referring to certain targets, such as roads, where the coordinates of the approximate midpoint are listed in the heading and additional coordinates may be cited in the description.
